▼ Foreword

Welcome to 1991! Now that we have begun a new decade, the field of corrections is looking at exciting new changes and challenges. Ideas that were once considered innovative, even risky–ideas such as boot camps, electronic monitoring and privatization–are now seen as commonplace. Even though some correctional aspects are at the forefront of technology, corrections must strive to move ahead. With budgets moving above the billion-dollar mark, and construction projects mushrooming to meet the demands of an exploding population and the expectations of the public, corrections is at an important juncture in its history.

Corrections has never been fully understood by the general public, and consequently has never received the full support it needs to keep up with social policy and trends in criminal justice. Although education and an increased comprehension have slowly led people to a better knowledge of the field, more support and concern is necessary to ease the intolerable conditions under which correctional professionals must work.

A base of information is an essential resource for any profession, and the correctional community is no exception. This directory provides current information on the United States and Canadian corrections systems, important data such as names, addresses, phone and fax numbers, populations, capacities, programs, and so on.

The statistical charts have been updated to provide a national overview of adult and juvenile state and federal systems. Along with capital expenditures budgets, this issue provides the newest breakdown of operating budgets, new death sentence statistics, and current providers of probation and parole services, a field that is attracting increased attention as the problem of crowding assumes higher proportions.

Because the ever-changing nature of corrections makes it impossible for the directory to be current, every effort has been made to keep the many new names, faces, departments, and divisions up to date. Because we make every effort to keep on file changes as they occur, please feel free to contact us should you need information.

The Association would like to thank the participating corrections officials and staff for their efforts to provide the information necessary for this publication. Their generous–and professional–spirit of cooperation and concern make possible the continuous publication of this important directory

As always, we welcome any comments you may have for improving any aspect of this directory.

▼ Meetings Schedule

The American Correctional Associations's two annual conventions–the Congress of Correction, in its 120th year, and the Winter Conference–are the catalysts for the advancement and growth of the Association. These international meetings give corrections practitioners from all sectors and levels of corrections and related fields the opportunity to exchange information and ideas, participate in enriching workshops and programs, and explore the latest technologies at the popular exhibit shows held in conjunction with each meeting.

Each conference features nationally known keynote speakers and experts from all areas of corrections who share their knowledge, skills, and expertise in the wide range of workshops offered. To further enhance the total convention experience, local correctional facility tours in the "host state" are available. In addition, a special Family Auxiliary registration is available allowing a registered delegate's spouse to attend all convention functions for a low price. Several fun-filled, exciting family tours offered can make an ACA convention the perfect family vacation as well.

Each year, the meetings take place in a different region of the country, allowing everyone an opportunity to attend. Thousands of delegates, including chapters and affiliates of the Association, gather to express ideas, influence national correctional policy, and promote professional development.

Be an active voice in corrections by attending the ACA's annual meetings. For further information, call the Conventions Department at 1-800-888-8784.

You've got a million things to do... And now they want you to build a prison?

Those responsible for the construction of correctional facilities are often caught in cells of their own.

The courts are in an uproar. Overcrowding is a major headache. Budgets are guarded tighter than your most secure block, and time... well, it's always past time.

How We Can Help

By becoming a day-to-day on-site extension of your facilities planning staff, Heery packs twenty-five years of expertise in design, scheduling, costing, bidding, contracts and construction. We know concrete or masonry pricing in the Southwest and the schedule impact of the Northeast winter snows. We know how your new correctional facility should be built, what it should cost and when it should be ready.

Consider Heery your hands-on management tool, the watch tower designed to help you look good when you've got a million other things to look after.

If you're up against a wall and need someone on your team, contact Heery Program Management.

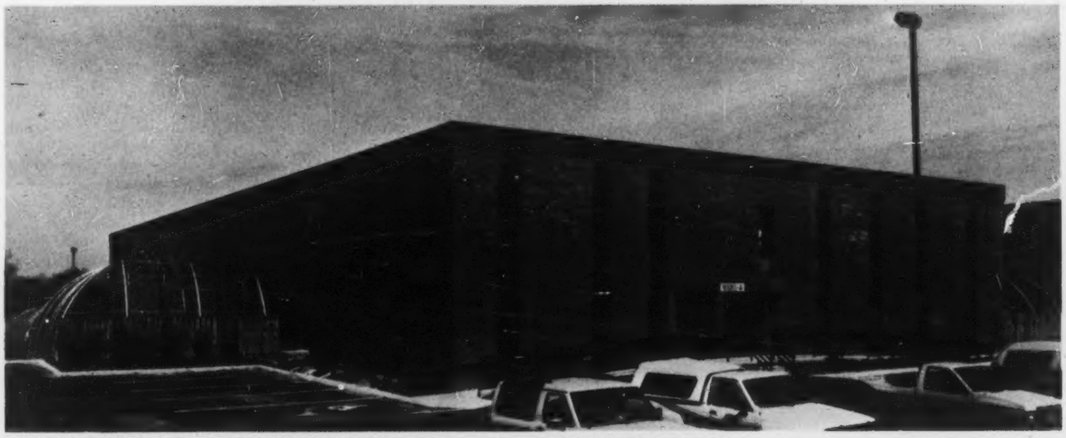
WHEN COUNTY JAILS AND STATE PRISONS ARE ASKED TO TAKE ON MORE PROGRAMS, SPACE MASTER IS THERE.



PRINCE WILLIAM COUNTY, VIRGINIA DETENTION CENTER

The relationship between today's state prisons and county jails is in a state of change. County jails are no longer being viewed as temporary, pre-trial holding facilities. State prisons are rapidly filling to capacity. Both are being asked to provide more services, hold inmates longer, and take on more programs.

The *CRITERION Planning Control System,* created by Schweizer Incorporated, is a complete system for programming and conceptual design of correctional facilities, large and small. The CRITERION SYSTEM integrates the skills and experience of correctional professionals and the planning team to define all of the functional needs of a facility into one concise document, ready for the design professional or the design/build team. For more information on how the CRITERION SYSTEM can work for you, ask to see how it has worked for others—quickly and effectively.

Better yet, see us at the ACA Show and we'll tell you the complete story of the…

VigilPane™ Plus... the extra security

VigilPane Plus glass clad polycarbonate provides considerably greater resistance to every type of break-through threat than all-glass laminates of comparable or greater thicknesses. It can be produced with single or multiple layers of polycarbonate to achieve maximum penetration and impact resistance to weapons fire and extended battering with crowbars, sledgehammers, bricks or other heavy objects... VigilPane Plus is also resistant to fire, chemical attacks, abrasion and scratching... Visual clarity and sound control are the equal of all-glass laminates, and VigilPane Plus is 40% to 60% lighter weight... Our in-house tempering and laminating facilities assure you of the well known Brite Vue fine quality. Write or call today for complete information.

Numbers set in **boldface** represent previous year totals and are not considered in computing overall percent increase.

When percentages are computed on above totals (including previous year counts), population increases 15% in '88; 13% in '89, and 14% in '90.

1. Includes 50-55-year-olds
2. Change since 1988 (not used to compute national percent increase)
3. Data as of 6/30/88
4. Aged 61-80
5. Aged 55 and over
6. Includes ages 50 to 60
7. Aged 60 and over
8. Data as of 6/30/87
9. Not including ages 55-60
10. Aged 55 to 65
11. Aged 65 and over
12. Comparing only states for which data has been provided for two consecutive years (36 states in 1988; 33 in 1989; and 35 in 1990)

PLAN FOR A MAJOR PRISON BREAKTHROUGH

When the demand to expand is critical, you should know about a major breakthrough in prison construction.

While security is still the first consideration, budget and deadlines are real-world threats. You must talk to someone who can build fast, cost-efficient, and above all, strong.

You need to talk to us.

PLAN TO SAVE TIME. Our unique method of Concurrent Construction℠ puts your facility together in much less time than traditional on-site construction without sacrificing durability.

PLAN TO SAVE MONEY. Our fixed-price contracts allow you to know how much your construction costs will be, without the annoying possibility of overruns upon completion.

PLAN TO BUILD IT RIGHT. We've designed and built facilities to meet requirements as demanding as, for example, dormitories near underground nuclear test sites. We provide optimum security construction to meet all ACA requirements, including woven steel-rod doors, non-combustible cement panel flooring, special security windows, and air-conditioning ducts fitted with man-bars. Clearspan design allows you an uninterrupted interior view. Alarm and surveillance systems are integrated into all units. And our quality-controlled precision gives you the highest structural integrity.

We're putting Concurrent Construction to work on projects from holding cells to large detention facilities all over the country. Before you plan any new facility, plan on talking to us.

While the American-made Harris Advantage™ High Security Communications System offers dramatic advantages over systems of the past, it's not exactly a new kid on the block.

Its heart is the Harris 20-20 PBX, a powerful successor to the reliable D1000 and E1200 systems. Originally designed and manufactured by Harris and proven in nearly 400 installations worldwide, in some of the harshest environments.

Today, Harris makes the only totally integrated system designed from the ground up for correctional institutions.

Thus, it offers specialized features like Fire and Emergency Conference, which automatically and continuously rings as many as 64 predetermined stations.

Watch Call Conference, which provides instant detection of head counts and any discrepancies.

Security Conference, which automatically gives your security staff instant, top-priority communications links with key personnel.

No Dial Alarm, which immediately identifies any extension on the system that is off-hook or inoperative.

And a Security Display Terminal, which documents all system security activity on a real-time basis with a CRT display and automatic, hard-copy printouts.

For more information, call our high-security telecommunications experts at **(415) 382-5000, ext. 5134.** For a system that does justice to your needs. **HARRIS**

ORGANIZATION AND ADMINISTRATION

*The State Penitentiary Board was originally established through Act 1, 1943. Act 50 of 1968 reorganized the State Penitentiary as the **Arkansas Department of Correction** and created two major boards: The **Board of Correction** and the **Board of Pardons and Paroles**. Act 937 of 1989 abolished the Board of Pardons and Paroles and the Board of Community Rehabilitation to create a **Board of Parole and Community Rehabilitation**. The Board of Correction consists of a Chairman, a Vice Chairman, a Secretary, two regular members, a non-voting ex-officio member who represents the Board of Parole and Community Rehabilitation and a non-voting advisory member who is actively engaged in law enforcement. Members of this Board are appointed by the Governor.*

***Compliance Office** reports directly to the Board of Correction and is responsible for monitoring Department of Correction compliance with Finney v. Hutto consent decree. The office is also responsible for monitoring the compliance of the Department in activities related to administrative regulations, standard operating procedures, Federal and State laws, Governor's executive orders, Board directives and standards by other correctional organizations. The office includes staff who are responsible for providing legal assistance to inmates and internal auditing functions.*

*The chief executive of the Arkansas Department of Correction is the Director. The Department's five major divisions are **Operations, Administrative Services, Field Services, Institutions, and Treatment Programs**. Other areas include Public Information/Legislative Liaison, Construction and Maintenance, Equal Opportunity and Grievance Officer, and Internal Affairs and Disciplinary Hearing.*

*Adult probation services are provided by the **Adult Probation Commission**, created in 1983 by Act 151. The commission functions independently.*

*Juvenile institutions are the responsibility of the **Department of Human Services, Division of Children and Family Services**. Juvenile services come under the jurisdiction of the chancery courts, juvenile division. Services are provided by the Division of Children and Family Services, except when provided by contractual agreements between the courts or DCFS and a network of community-based providers throughout the state.*

ADULT PAROLE BOARD AND COMMUNITY SERVICES

*The **Board of Parole and Community Rehabilitation** consists of seven members appointed by the Governor to staggered seven-year terms. A panel of two members usually meets several days each month at the various units within the Department. They interview inmates to determine those persons who should be placed on parole or an alternative service program and prescribe the conditions of parole and alternative service release or related functions. They make recommendations to the Governor on applications for pardons and executive clemencies. Once the eligible inmates are interviewed by the panel, the full board meets once a month to approve or disapprove the offenders' release.*

Any reliable fence security system will detect security breaches, and report by zone where the breach has occurred. ADULT PROBATION SERVICES

*The **Arkansas Adult Probation Commission** was established through Act 151 of 1983 thus separating adult probation services from the Department of Correction. The purpose of the Commission is to make adult probation services available to circuit (felony) courts, inclusive of interstate compact; improve the effectiveness of probation services; provide alternatives to incarceration by providing financial aid to judicial circuits for the establishment and improvement of probation services and community-based correctional programs and facilities other than jails or prisons; and establish uniform probation administration standards.

ORGANIZATION AND ADMINISTRATION

In 1977, the ***Department of Corrections*** *was formed for adult corrections, retaining the same sentencing system as it had as a division of the* ***Department of Institutions****. Parole supervision is administered through the* ***Division of Community Services****.*

The ***Division of Youth Services****, under the Department of Institutions, provides institutional and aftercare services for juveniles.*

The ***Board of Parole****, an independent agency, grants parole to adults only. The* ***Juvenile Parole Board*** *is an independent agency within the Department of Institutions.*

Adult and juvenile probation services are a function of the ***Colorado Judicial Department****.*

ADULT INSTITUTIONS

Commitments (of the age 16 or above) to the ***Department of Corrections*** *are adjudicated in adult court as felons or misdemeanants and sentenced to a definite term having a fixed minimum and fixed maximum sentence. Holds Heat! Holds Up!

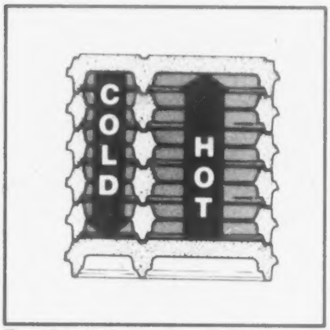
Insulated Servers Keep Hot Food Hot, Cold Food Cold.

The Heat's On To Keep the Heat In
The Meals You Serve

Want to hold required 140°F serving minimums and find durable serviceware to do it with, too?



Tray Stack Keeps Food Hot
To Required 140°F Minimums.

Use Aladdin servers. They capture the heat that's cooked into food to keep it hot. Urethane foam wrapped in a tough, molded shell, insulates it. Perfect for isolation and satellite meals.

Because servers stack in an inter-locking tower, heat rises from each serving compartment, keeping food items above warm.

Cold food items in the stack, meanwhile, keep each other chilled. Materials and seamless molding technique make system impact- and torque-resistant. Protects your investment.

BESTEEL Meets Requirements At Riker's Island Jail

One major requirement of the New York City Department of Corrections was to provide Riker's Island Jail with non-combustible permanent housing for 400 inmates in less than 10 months. Another requirement was to minimize security risks during construction.

BESTEEL met those requirements by manufacturing steel and concrete modules off-site while on-site development took place. This off-site construction eliminated many on-site security risks and accelerated project completion.

The result was 2 multi-story buildings completed in less than 10 months.

The BESTEEL Modular Building System offers flexibility and speed to meet your requirements for permanent correctional facilities.

Our New Model 500C Muscle Master™ has been specifically designed for use in correctional facilities. It is an ideal indoor/outdoor exercise and fitness center. Six persons can comfortably use the Muscle Master™ at the same time. Thirteen exercise stations provide a complete workout, all in an area of only 12' x 12'.

A pre-welded, 11 gauge hexagonal frame is constructed from tubular steel, assuring a long work life under constant, rugged use. Other value features include: nylon-coated steel aircraft cables, locknut security fasteners, reinforced duration upholstery, nylon/fiberglass pulleys with endurance bearings, solid steel bar weight plates, and shock cord - secured weight selector pins.

The unique Muscle Master™ 500C is made to deliver solid, secure, uninterrupted service under the most demanding conditions. JUVENILE INTAKE, PROBATION AND AFTERCARE SERVICES

Florida's 67 counties are divided into 11 districts. A district administrator administers all programs within a district. Programs for delinquent and dependent children, including the delinquency community control (probation) and furlough (aftercare) program, and delinquency intake are administered under a ***Children, Youth and Families*** *(CYF) organizational structure. Unit offices are strategically located throughout a district to serve delinquent offenders under supervision.*

The Community Control and Furlough program provides supervision of juveniles placed on community control by the courts, and for those juveniles released on furlough from commitment programs (training schools, halfway houses, etc.). Community services and restitution are a major part of community control. Juvenile offenders work in these programs for a specified number of hours as part of court-ordered supervision. Communities throughout Florida have provided hundreds of work sites for juvenile offenders.

At the headquarters level in Tallahassee, the CYF Program Office acts in a staff capacity to field staff by providing uniform policies and procedures through program manuals and administrative rules. This office is also responsible for quality control, interprogram coordination, monitoring of programs, and other functions as prescribed by law.

Each district also has a CYF Program Office to coordinate programs for dependent and delinquent children.

ORGANIZATION AND ADMINISTRATION

*Under the **Department of Corrections**, the **Facilities Division** is responsible for adult offender institutions (state and county) and transitional centers (work release, pre-release, and adjustment centers) and the **Probation Division** for services on the state and county level (field supervision, Probation/Restitution/Diversion Centers/Detention Centers).*

*The **Board of Pardons and Parole** is an independent agency which reviews adult parole cases and provides field parole supervision. It is also the only state agency vested with the power to grant clemency.*

*Under the **Department of Human Resources' Division of Youth Services**, juvenile institutions, parole and the majority of probation services are provided by county-operated and financed juvenile courts. In several counties, these responsibilities are shared by both Division of Youth Services' staff and county staff.*

IT'S ABOUT TIME SOMEBODY DID IT!

See us in "Sweets" 1991

The corrections industry has seen many changes from suppliers and manufacturers over the years.

Just look around, almost every day you will see changes in product specs, technologies, manufacturing and design. All these encourage bewilderment, delayed shipments, product integrity and increased costs.

Are all of these changes necessary?

We at FCE say NO! Product quality, service and dependability, need never be changed or compromised... that's the FCE philosophy... and why we've been manufacturing detention equipment since 1921.

Don't get us wrong, change for the most part is good, without it we halt progress. But, think for a moment how obliging things would be with industry standards you could finally depend on...we have. That's why...

"We set the Standards"

...somebody had to!

For more information about our quality products, services and dependability, write for your free equipment manual.

JUVENILE SERVICES

Original jurisdiction in juvenile cases is at the District (Magistrate) Court level. Jurisdiction obtained by the court may be retained until age 21, unless terminated prior thereto. Jurisdiction is terminated after a youth is committed to the Department of Health and Welfare (DHW) and subsequently discharged by the Department. Jurisdiction is terminated when a juvenile is convicted of a felony after age 18. Juveniles under the jurisdiction of the court and charged with a felony after turning 18 are treated as adults.

The courts may commit a youth to the Department of Health and Welfare and designate whether the commitment is for secure confinement or placement in a community based program. Secure confinement is defined as placement in a state operated facility that provides twenty-four hour supervision and confinement for youth offenders committed for custody and rehabilitation. After a youth has been committed, the Department has dispositional authority regarding which specific secure or community based program is utilized for an individual youth offender. There is only one secure facility for youth offenders in the state.

Adult felons with sentences of one year or more are committed to the adult institutions of the ***Department of Corrections****. Effective July 1983, misdemeanants (those with a sentence of less than one year) may not be sentenced to the Department.*

Sentences for crimes committed prior to February 1, 1978 were indeterminate sentences. Even the simplest designs can lead to a major construction effort...

And correctional facilities are far from simple. You have what seems to be a monumental task in front of you and you don't have decades to finish it. Your facility is under orders to relieve overcrowding. That means build a new facility or expand your existing one. How will you fund it? How will you manage what seems like a cast of thousands? Let Sverdrup help. ▲ We can work with you to explore funding options while our designers develop the program and analyze initial and life cycle cost implications. We have the hands-on construction management experience you need to get that project built — on time and within budget. The result is a facility designed to meet tomorrow's needs. ▲ Our comprehensive correctional facilities planning checklist addresses these concerns and others. For a free copy, call Glenn Gauger or Roger Grimshaw at (800) 325-7910 or, in Missouri, (314) 436-7600. Or write: Sverdrup Corporation, 801 North Eleventh Street, St. Louis, Missouri 63101.

PRISONER REVIEW BOARD (FT)

The Board is comprised of twelve members appointed by the Governor with the advise and consent of the Senate to six-year staggered terms. It has paroling authority for both adult and juvenile offenders, although most adult offenders are serving determinate sentences and are released at one half of their court imposed sentences. ADULT AND JUVENILE PROBATION SERVICES

The ***Judicial Conference of Indiana*** *consists of all the state's full-time judges of courts of record and full-time magistrates. Probation services for both adults and juveniles are administered at the county level under recommended standards of the Judicial Conference. The Judicial Conference is governed by a Board of Directors chaired by the Chief Justice of Indiana. The Judicial Conference is served by the Indiana Judicial Center, the Conference's staff agency.*

Probation officers are county employees directly supervised and employed by the judge or judges in the county. The Judicial Conference of Indiana has responsibility for administering the examination of prospective probation officers, and for conducting educational programs for probation officers, and developing standards for probation services. The Indiana Judicial Center collects statistics concerning home detention and electronic monitoring of probationers. The Division of State Court Administration collects all other probation data.

The probation portion of the Interstate Compact on Probation and Parole and the Interstate Compact on Juveniles is administered by the Indiana Judicial Center. All probation interstate inquiries should be directed to the Probation Coordinator.

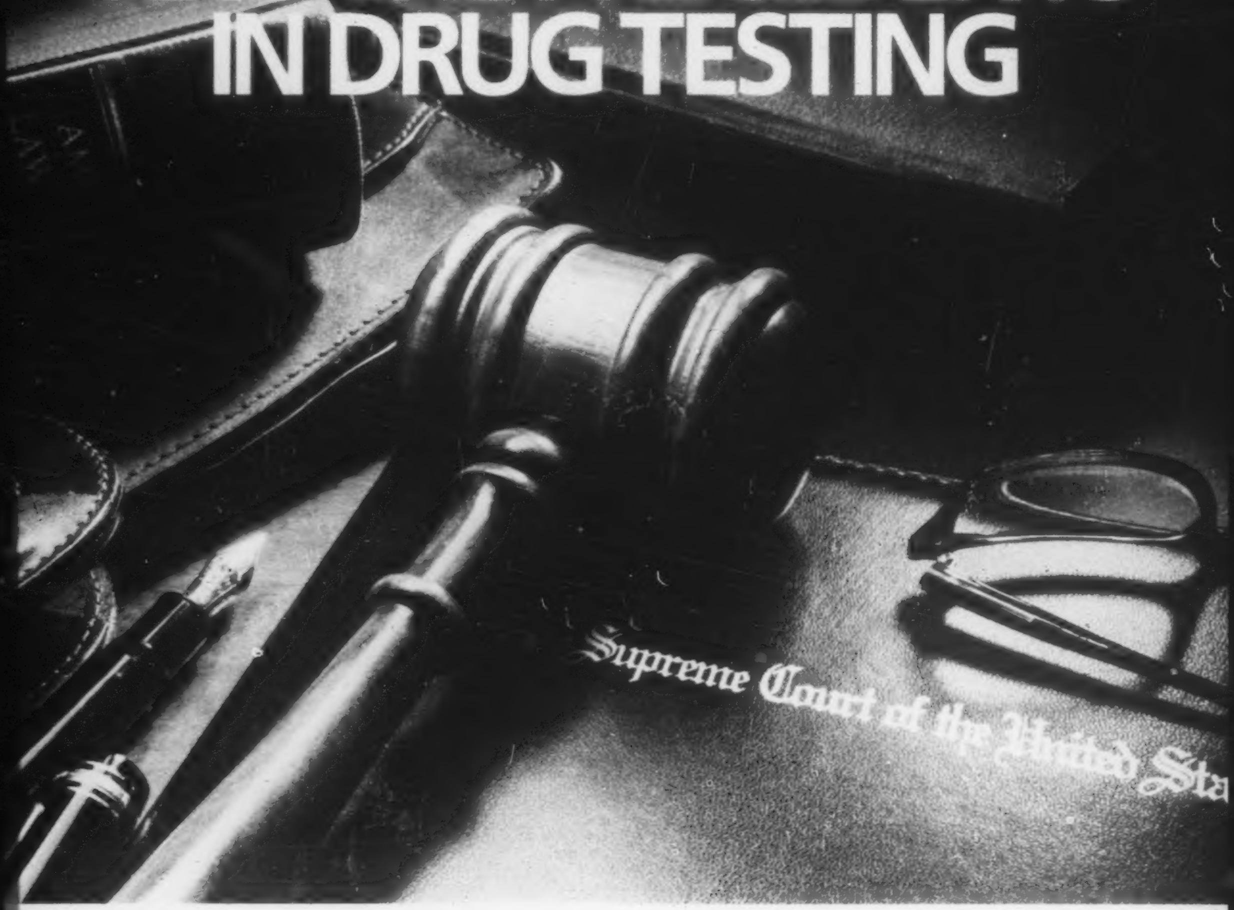
SYVA
SETS THE PRECEDENTS IN DRUG TESTING



In 1989 the Supreme Court of the United States established Syva Emit® immunoassays as highly accurate and reliable tests for drugs of abuse. Numerous court decisions over the last decade have also affirmed the accuracy of Emit technology.

In fact, Syva Company has set precedents for twenty-three years. Syva invented Emit technology, the method now used by 98% of NIDA* and CAP†-certified labs. This fast, effective technique is the most widely used test method for drugs of abuse in the world.

Syva gives you precedent-setting reliability and efficiency with the Syva ETS drug testing system. In addition, our new SYVA EDMS™ Data Management System for the ETS® Analyzer allows you to report and track test results more accurately, more easily than ever before. And for added flexibility and convenience, Syva Emit assays run on most general chemistry analyzers.

Let Syva Company help you set precedents in testing for drugs of abuse. Call today for a FREE brochure entitled, "Frequently Asked Questions About Syva Emit Drug Abuse Tests." Call toll free 1-800-227-9948, in California call 1-800-982-6135, and in Canada 1-800-267-6205.

FIRE FINDER ®

MODEL 955 - INFRARED HEAT SENSOR

The Professional Safety Officer's Aid in locating hot spots or fires

- Fire is the only other thing you try to prevent from breaking out in your confinement facility.
- The inmates you can see, not so with fire.
- Many fires are invisible such as electrical transformers, hot ballast, super heated air, chemical fires, fuel fires, smoldering remnants, etc.
- The **Fire Finder** "see's" what the naked eye cannot. It "see's" through smoke, darkness, glass, plastic and in full sunlight.
- For over 12 years, the **Fire Finder** has been used by more community fire departments and agencies than any other product of its kind. The D.O.D., NASA, U.S. Forest Service, U.S. Department of Interior, aerospace companies, mining company's utility operations, correctional facilities and thousands of municipal and volunteer fire departments all over the world use it extensively.
- Portable and easy to use, it is the best non-intrusive, non-invasive, way to examine a cell or any other area for hot spots or ignited materials. From safe distances you can inspect entire areas for potential fire danger.
- The **Fire Finder** gives an instantaneous audible alarm where the pitch is proportional to temperature of the hot spot or fire.
- Built tough, fully calibrated, no controls and requiring no eye contact, the **Fire Finder** is going to multiply your security effectiveness by limiting the exposure of your staff to hazardous situations compounded by fire and inmate uncertainties.
- The **Fire Finder** operates on two standard 9 volt batteries.
- The **Fire Finder** costs less than a home video camera and has a three year warranty on all parts and labor.

MAXIMUM SECURITY!

No matter how small...wherever it's hidden... SOLCO's exclusive 360° screening system finds weapons or objects other detection systems miss.

Designed to detect minute amounts of ferrous and non-ferrous metals, the **SOLCO** Systems find weapons or objects **concealed anywhere.**

SOLCO offers penal institutions, courts and correctional facilities two options in sensitive, effective screening:

- **For conventional weapons screening, the SOLCO Model XI**
- **For special applications to detect extremely-small, easily-concealed objects, the Model IX-C Signature System.**

SOLCO's ultra-sensitive detection capability adds a maximum dimension of security to correctional and court facilities. **SOLCO** is now detecting and deterring contraband smuggling for major penal, youth and court facilities in Ohio, California, Georgia, New York, Florida and Cook County, Illinois.

Move up to maximum security!

Since the beginning of history, people have gone to great lengths to perfect security systems.

History has proven: "Stone walls do not a prison make."

Hence the reason for modern security systems: but these systems can range from good to bad, like Dr. Jekyll and Mr. Hyde, and they can be just as monstrous, particularly for staff hired to manage them.

That's why D.W. Thomson designs advanced computer security systems with undeniable ease of operation.

Systems that dramatically increase security, and in doing so, greatly improve security for staff and surrounding communities.

Systems that provide a faster payback period by reducing manpower requirements.

Systems that do not require the need for operating personnel to be experts in technical aspects of the systems themselves.

Systems with a proven track record of performance.

To date there has not been a single incident of escape from an institution in which a "D.W. Thomson" integrated system has been installed that could be attributed to the failure of the system.

Now, that's really something for the history books.

This sprinkler belongs in an institution.

THE PROHIBITOR*

Today more and more prisons, hospitals and high security institutions are specifying special institutional sprinklers which minimize the opportunity for self-inflicted injury.

The Omega Prohibitor* incorporates not only a tamper resistant installation, but also sensitivity for that extra margin of life safety. Available in pendent, sidewall, quick response and extended coverage models (up to 400 square feet).

The next time the project requires an institutional sprinkler, make the intelligent choice.

JUVENILE SERVICES

*Juvenile institutions, intake, probation, and aftercare (parole) services all come under the jurisdiction of the **Department of Juvenile Services**. The majority of children who come under the preview of the Department are supervised by juvenile counselors within the community or are placed in private community-based residential programs. Less than 10 percent are committed to institutional facilities by the courts. Commitments are for indeterminate periods of time. At the time of commitment, the Department of Juvenile Services assigns an aftercare worker to the case whose job is to prepare the community for the child's return as well as help the institution prepare the child for eventual release back into the community. The date of release is determined by the institutional staff and the aftercare worker who together make their recommendation to the courts for final approval.*

JUVENILE INTAKE, PROBATION AND AFTERCARE

The decision to put juvenile offenders on probation instead of institutionalizing them is made by the Court, based on the recommendation of the juvenile counselor. Intake, Probation and Aftercare services are provided by juvenile counselors within each region. The State (including Baltimore City) is geographically broken down into ten regions; the Supervisors administer the services for their region and are responsible to the Assistant Secretary for Field Services.

We do justice to justice architecture

We call ourselves architects and planners, but our clients know us as good listeners. That's because long before we draw lines on paper, we establish lines of communication. By listening to you and your staff, we learn what you need, what you want, what pressures you face. From conversations with you come ideas to build on - and projects built the way you want them.

If you need design services, let's talk.

COMMUNITY CORRECTIONS SERVICES

*The **Office of Community Corrections (OCC)**, was created by Public Act 511 in 1988. The OCC is responsible for the management of the Community Corrections Act which has as its general goals the appropriate utilization of prison and jail facilities so as to alleviate institutional crowding by maximizing the use of community-based punishment programs. The OCC is overseen by the Michigan State Community Corrections Board which is appointed by the Governor. The Board hires the Executive Director who reports directly to the Governor. The OCC is completely autonomous from the Department of Corrections but housed there as a constitutional protection. The DOC provides administrative support services to the OCC to avoid unnecessary duplication.*

By law, the office of Community Corrections has several important tasks to manage: local program services and statewide data collection, reporting and analysis.

ORGANIZATION AND ADMINISTRATION

Both the adult and juvenile state correctional institutions come under the jurisdiction of the ***Department of Corrections****. The Commissioner of Corrections has responsibility for parole and supervised release. With the exception of the parole of inmates with life sentences, this parole authority is delegated to the* ***Office of Adult Release****. The* ***Executive Officer of Juvenile Release****, under the authority of the Commissioner, is the paroling authority for juveniles.*

The ***Board of Pardons*** *has the authority to grant pardons and pardon extraordinaries, and to commute sentences. The Board consists of the Governor, Chief Justice of the Supreme Court, and the Attorney General. The Commissioner of Corrections or his designee serves as secretary to the Board of Pardons.*

Probation, parole and supervised release are provided by the state and counties in different manners. Counties participating in the State Community Corrections Act (one-third of the counties; two-thirds of the state population) provide probation, parole and supervised release services to both adults and juveniles. In the remaining counties, adult services are provided by the state and juvenile services are provided by the counties either with their own personnel or through contracts with the state.

ADULT PAROLE AND SUPERVISED RELEASE AUTHORITY

*The Commissioner of Corrections has responsibility for parole and supervised release. With the exception of the parole of inmates with life sentences, the Commissioner delegates this authority to the Office of Adult Release. The **Office of Adult Release** consists of the Executive Officer of Adult Release and two full-time Deputy Executive Officers and corrections staff who are assigned part-time to assist the executive officer. An advisory panel composed of departmental employees advises the Commissioner regarding inmates with life sentences. The delegation of authority provides for the Executive Officer of Adult Release to grant parole and work release, to revoke parole, work release and supervised release, to discharge persons under indeterminate sentences, and to approve the condition of parole, work release, and supervised release. Parole and supervised release responsibilities were formerly performed by the Minnesota Corrections Board (parole board) which was legislatively abolished on June 30, 1982.*

ADULT AND JUVENILE PROBATION, PAROLE AND SUPERVISED RELEASE SERVICES

Probation, parole and supervised release are administered by the state and counties in different manners. Those counties under the Community Corrections Act provide probation, parole and supervised release services for both adults and juveniles. In the remaining counties, juvenile services are provided by the counties either with their own personnel or through contracts with the state. Felony services are provided by the state.

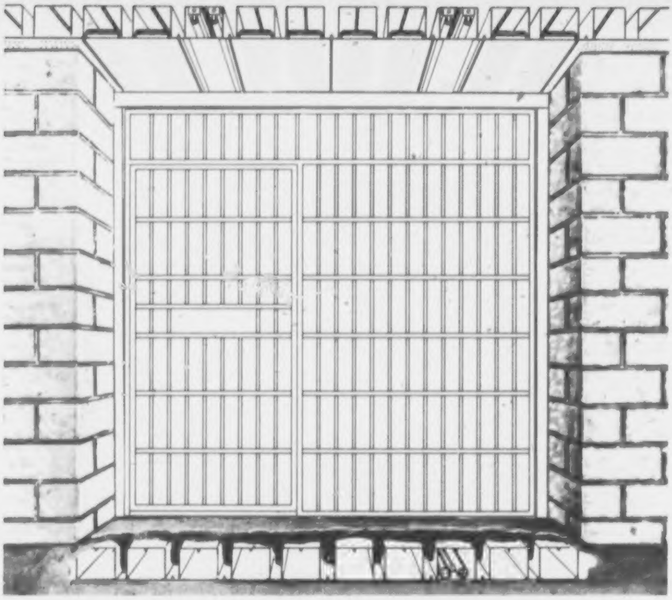
LONG-SPAN SECURITY CEILING

For Criminal Justice Systems



■ The Epic Metals Security Ceiling System may be used as an acoustical ceiling or as **both** a **ceiling** and a **structural system** for the roof or floor above.

■ The ceiling can achieve a noise reduction coefficient of up to 1.0 and lighting can be recessed or mounted to the ceiling.

■ The Epic Metals Security Ceiling comes to the construction site welded together as one piece. This saves the labor of field assembly of a ceiling to the above floor or roof when used structurally.

■ The **five** different types and the ability to select the steel thickness enables the Architect or Engineer to select the right system for inside the cells and for spans up to 30 feet (day rooms and foyers).

COMMUNITY SERVICE CENTERS

The Community Service Centers are a pre-release concept designed to ease the re-entry of the released, adult offender into the community. Houses not more than 50 for a period of about four months. Residents work a regular full-time job or attend school or vocational training. Residents eligible for admission into the program are those who have achieved minimum custody status in the institution, who meet stipulated admission criteria and who are within seven months of release to parole or termination of sentence.

ADULT PAROLE BOARDS

*The **State Parole Board** is a full-time Board composed of a Chairman and eight Associate Members appointed by the Governor with the advice and consent of the Senate. The Board is comprised of panels for adult, young adult and juvenile cases. The members are further paired to hear county jail cases.*

Each panel consists of two Associate Members with the Chairman sitting as the third member of each panel. The Board is the paroling authority for all offenders committed as adults, young adults or juveniles in the state and county jail inmates with terms in excess of 60 days. The Board also investigates and advises the Governor on all applications for executive clemency. In 1984, a Victim Input Program was started. The Board will consider the testimonies of victims of first and second degree crimes in making decisions.

ADULT AND JUVENILE PROBATION SERVICES

As a judicial function established by statute, probation is a disposition which may be imposed on both adults and juveniles as an alternative to confinement in state or county facilities or directly as a sentence. The Supreme Court, under the leadership of the Chief Justice, aided by the Administrative Director of the Courts (AOC), is responsible for setting statewide probation policy. The Assistant Director for Probation at the state level AOC coordinates day to day programs and activities, maintains responsibility for interstate cases, and acts as consultant to the Judiciary on probation matters. The state also manages a line operation, Intensive Supervision Program.

Assignment Judges of each judicial district make recommendations for Vicinage Chief Probation Officers. These individuals are appointed by the Director of the AOC with the approval of the Chief Justice. Assignment Judges also appoint Probation Officers, fix salaries and administer day to day operations of the local probation departments. Operating costs are paid for primarily by the counties.

"Permanent Modular Detention Facilities From ISI can save you 20% in costs and 50% in construction time."

Bob Viterna, former Executive Director, Texas Commission on Jail Standards, inspects modular cells at International Systems plant.

"International Systems, Inc., builds secure, safe jails that will meet the toughest standards and save you money. Plain and simple.

"Most operators of detention facilities are facing the same problems these days — how to deal with overcrowded conditions and still meet budget constraints.

"ISI has the answer. Our patented pre-cast concrete module system allows us to design and construct the detention facility that best fits your needs . . . and your budget. We can design facilities to house as few as eight prisoners or several hundred. And you can choose either to purchase the facility outright or lease one designed and built to fit your needs.

"Because our modules are mass-produced and require minimum on-site labor, construction time is cut by 50%, and you can save some 20% over the cost of conventional construction, just as counties using our facilities in Texas, Georgia and New York.

"The finished product not only meets all states' jail construction standards, but also the toughest standards in the world. Mine.

"I'd like to urge you to talk with some of our satisfied customers, such as Sheriff Lee Scott Hurley, Robertson County, Texas, at (409) 828-3299 or Sheriff W.G. 'Shiloh' Garmon, Comanche County, Texas, at (915) 356-2161.

"If you'd like more information on how ISI can save you time and money, just pick up the phone and call me, Bob Viterna, Vice President, Marketing/Research & Development, International Systems, Inc."

At Stevens & Wilkinson, we believe that the key to designing effective correctional facilities is communication. That is why we work as a team with our clients to develop the most efficient and cost effective facilities possible. For more than seventy years, our work has been marked by the personal involvement of our principals in each project undertaken by the firm.

Stevens & Wilkinson's approach to correctional facility design is based on a carefully directed problem solving process. Although highly experienced in the design of *direct-supervision correctional/jail facilities*, our professional team does not enter your project with preconceived solutions. Instead, through active participation with the staff who will operate the facility, the desired building solution evolves. Our architects and engineers work with you to resolve the complicated issues that face you in undertaking the planning and design of a new facility.

We are proven *direct-supervision correctional/jail facility* specialists at Stevens & Wilkinson - a multi-disciplined firm of over 100 architects, engineers and interior designers with offices in Columbia, South Carolina, and Atlanta, Georgia. We invite you to share the challenge of your next project with us; and we look forward to contributing to your success.

ORGANIZATION AND ADMINISTRATION

*Adult correctional institutions and services are provided by the **Department of Correction**, a supra-agency composed of two operating divisions. The **Division of Prisons** is responsible for the incarceration of adult offenders and youthful offenders ages 16-21. Division operations are divided into two geographic commands (East and West), and three specialized commands (**Youth Services, Female, Specialized Institutions**). The **Division of Adult Probation and Parole** is responsible for the supervision of all adult probationers and parolees. The third Division, **Human Resource Management**, is responsible for personnel matters and training.*

*The **Parole Commission** is the paroling authority for adult offenders. It is an independent body funded by the Department of Correction and reporting only to the Governor.*

*Juvenile institutions are operated by the **Department of Human Resources' Division of Youth Services**. A juvenile is released from an institution after completion of the "main stream" level or step program. Children are then released at the discretion of the treatment team and staff of the institution except when committed for a definite term by the court. There is no juvenile parole board as such.*

*Juvenile intake, probation, and aftercare are provided by the **Juvenile Services Division** of the **Administrative Office of the Courts**.*

ORGANIZATION AND ADMINISTRATION

Adult corrections institutions and parole services are provided by the ***Department of Rehabilitation and Correction****; juvenile institutions and parole services are provided by the* ***Department of Youth Services****.*

The ***Parole Board*** *of the* ***Adult Parole Authority*** *is the paroling authority for adult felons. The Adult Parole Authority, within the* ***Division of Parole and Community Services*** *under the Department of Rehabilitation and Correction, may exercise general supervision over all probation officers in the state, including those in county probation departments. All parolees and selected probationers referred by the Common Pleas Court on a contract basis are supervised by the Adult Parole Authority. In the remaining counties, probation services are provided by local probation departments. Upon release from an institution, juveniles enter aftercare status of the Department of Youth Services. Parole revocation hearings are conducted in the committing court. Probation supervision of juveniles is provided by probation officers who are appointed by a Juvenile Court Judge.*

ADULT INSTITUTIONS

A person convicted of a felony under Ohio law may be sentenced to a penal institution. Ohio statutes divide male penal institutions into two categories—reformatories and penitentiaries. Male persons, except those convicted of first or second degree murder, between the ages of twenty-one and thirty years of age may be sentenced to a reformatory, if such persons have not been known previously to have served a sentence in a federal, state or other prison or correctional institution, and are persons whom the sentencing court deems amenable to reformatory methods. Males between the ages of eighteen and twenty-one years, other than those convicted of first or second degree murder, must be sentenced to reformatories unless such males have previously served a sentence in a federal or state prison or correctional institution for conviction of a felony. All other males sentenced to a state penal institution are sent to a penitentiary. Ohio operates one facility for women convicted of a felony and sentenced to a penal institution—the Ohio Reformatory for Women.

JUVENILE INSTITUTIONS

To be placed into the custody of the ***Department of Youth Services****, a juvenile offender must be committed by a county juvenile court for an offense which would be a Felony I, II, III, IV, or a capital offense if committed by an adult. Upon commitment, a youth is placed in the appropriate DYS institution based on a classification system which considers prior offenses, committing office and special program/service needs. All youth who are committed to DYS may, at the discretion of the Department, be institutionalized to age 21, although very few actually are. There are minimum periods of institutionalization as follows: Murder or aggravated murder, until the youth reaches 21 years of age; felonies of the first and second degree, one year; and felonies of the third and fourth degree, six months. It should be noted that many youth are released before the "minimum" period, through a statutory process which requires approval of the committing court.*

JUVENILE PROBATION

Probation of juveniles is administered by probation officers appointed by a Juvenile Court Judge. The Judge may transfer the duties of probation to county probation departments but at no time may a juvenile case be handled by an officer from the Adult Division. The ***Office of Subsidies*** *within the* ***Department of Youth Services*** *administers a program of state aid to juvenile courts.*

In all but two counties, the Juvenile Court is within the ***Division of Domestic Relations of the Court of Common Pleas****. Cuyahoga County has an independent juvenile court; Hamilton County juvenile court is a separate division of that county's Court of Common Pleas. All juvenile courts have exclusive original jurisdiction over delinquent, neglected, and "unruly" children under 18 and over physically handicapped children up to age 21.*

ADULT INSTITUTIONS AND SERVICES

Any adult, 18 years or older, convicted of a felony, or juvenile (16-17) on juvenile court remand, is committed to the Department of Corrections. Institution sentencing is calculated based on the date of commission of the crime. If crime was determined to have been committed prior to November 1, 1989, or crime commission date is uncertain, the indeterminate sentencing laws apply. If crime was determined to have been committed after November 1, 1989, determinate sentencing occurs under the Sentencing Guideline laws established by the 1989 legislature.

ORGANIZATION AND ADMINISTRATION

Adult institutions come under the jurisdiction of the ***Department of Corrections****. The Commissioner is appointed by the Governor.*

The paroling actions and supervision of adults whose sentences are two years or more are the responsibility of the ***Board of Probation and Parole****. County probation departments supervise adult cases with sentences of two years or less paroled by county courts. The Board also has authority to supervise probation cases and offenders sentenced to confinement with a maximum of two years or less when paroled and referred to the Board by the county courts; county courts retain authority to revoke, terminate or take other judicial actions in these special cases. The* ***Board of Pardons*** *hears petitions for executive clemency.*

Juvenile institutions come under the jurisdiction of the ***Bureau of State Children and Youth Programs*** *of the* ***Department of Public Welfare's Office of Children, Youth and Families****. Juvenile probation and aftercare are functions of the counties and their officers.*

There are no institutional juvenile parole boards; the Juvenile Court has complete and original jurisdiction over juvenile offenders.

ADULT INSTITUTIONS

Those convicted in adult criminal court and receiving maximum sentences of from two to five years may, at the discretion of the court, be sent to a Correctional Diagnostic and Classification Center for classification and transfer within the state system. Criminal convictions receiving five years or more must be sent to a Correctional Diagnostic and Classification Center. A 23-county region of Western Pennsylvania may send all individuals receiving minimum sentences of at least six months and maximum sentences of less than two years to the regional facility at Mercer.

Parole eligibility occurs at the completion of the minimum sentence date which may not exceed one-half of the maximum sentence. For certain violent crimes, a mandatory five-year minimum sentence is required. All other cases are sentenced under 1982 sentencing guidelines, which require the courts to justify any deviations.

ADULT PAROLE AND PROBATION

*The **Board of Probation and Parole**, a state agency, is responsible for the paroling action and supervision of all adult offenders receiving a sentence of two years or more. Offenders sentenced to a maximum sentence of less than two years are paroled by county courts and supervised by county probation departments.*

The Board also has authority to supervise probation cases and offenders sentenced to confinement with a maximum of less than two years when paroled and referred to the Board by the county courts. The Board has only supervision authority in these special cases; county courts retain authority to revoke, terminate or other judicial actions.

The Board is responsible, by state statute, for establishing uniform state-wide standards for county adult probation services. It also administers a Grant-in-Aid Program which provides funds to counties for the improvement of county adult probation services.

The Board consists of five full-time members, appointed by the Governor with the consent of a majority of the Senate members to serve staggered, renewable six-year terms. Board members are prohibited from engaging in any other employment or political activity.

JUVENILE PROBATION AFTERCARE

Within the context of the Juvenile Court Act, the state provides institutions for juveniles but the counties administer juvenile services, i.e., probation aftercare (the term parole is not used). The Juvenile Court Judges' Commission is responsible for advising juvenile courts concerning the proper care and maintenance of delinquent children; establishing standards governing the administrative practices and judicial procedures used in juvenile courts; examining personnel practices and employment standards used in probation offices; collecting, compiling and publishing juvenile court statistics; and administering a grant-in-aid program to improve county juvenile probation services. ORGANIZATION AND ADMINISTRATION

The mission of the ***Philadelphia Prisons System*** *is the maintenance of a correctional program that adequately detains individuals accused or convicted of illegal acts. At the same time, the Prisons System provides human services, supervision, training and habilitation in a humane environment and in a cost-effective manner.*

The City of Philadelphia's five correctional facilities confine persons 18 years of age or older who have been committed by the courts in either a detention or a sentenced status. Federal prisoners are also held for disposition by the US District Court of the Immigration and Naturalization Service.

The Philadelphia Prisons Systems is subject to the administration of the Board of Trustees whose members include the Commissioner of Human Services (ex-officio) and six citizens appointed by the Mayor.

The Commissioner of Prisons, as the executive director for the Board of Trustees, has the responsibility for fiscal control; for the overall supervision of operations and coordination of activities; planning, development, and execution of policy; administrative studies and reviews; and relations with City and other government officials, the community, and public and private agencies.

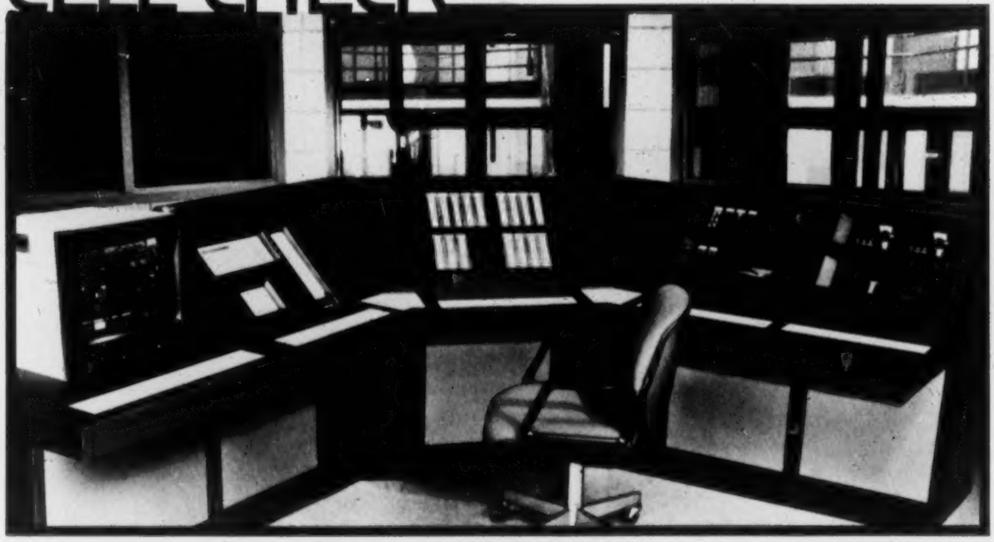
CELL CHECK



a correctional facility electronic security system from Simplex

From years of experience, we understand your concerns about reliability, operational flexibility, service and perhaps more than anything else today – your responsibility to protect your guard force and facility population.

CELL CHECK responds to those concerns with

- Fire/Life Safety
- Security/CCVE
- Emergency Communications
- Cell Control
- Access Management
- Watch Tour Supervision/Reporting
- Touch Screen Color Graphics

CELL CHECK offers solutions to correctional facility electronic security problems. For example, CELL CHECK'S interval timed watch tour program provides hardcopy printout each time your officer checks into a tour station. – An important feature for liability protection. The program automatically triggers an alert if the time interval between stations is too long.

ADULT INSTITUTIONS

Responsibility for direct supervision of institutions is divided among three regional administrators who report to the ***Deputy Commissioner for Operations****. Because of overcrowded conditions, some state inmates are housed in designated local facilities, as provided for by legislation for a period of one year and may be renewed by mutual agreement of the Department of Corrections and local officials. The office of the Deputy Commissioner for Operations is responsible for placing state inmates in designated local facilities. At the end of FY 1989, there were 54 designated local facilities with 505 Department of Corrections inmates.*

YOUTH DEVELOPMENT CENTERS

Juvenile commitments may be either indeterminate or determinate. The release date for a juvenile is determined by the Department of Youth Development with the approval of the juvenile court judge. Indeterminate releases are based on recommendations made by the superintendents of the youth development centers where the juvenile resides with approval by the Commissioner of Youth Development and the committing judge. Determinate sentence releases are authorized after the completion of the sentence with incentive time figured at approximately 30%. The majority of juveniles released from youth development centers, group homes, or contract programs are placed on aftercare status following their return to their home community.

ORGANIZATION AND ADMINISTRATION

*The **Texas Department of Criminal Justice (TDCJ)-Institutional Division** operates adult institutions. The Institutional Division reports to the **Texas Board of Criminal Justice.***

*Effective January 1, 1990, the **Board of Pardons and Paroles**, which paroles adults and is responsible for providing parole services, also came under the jurisdiction of the umbrella Department of Criminal Justice. Legislation expanded the Board from six to 18 members and separated it physically and administratively from parole staff, who joined TDCJ as the **Pardons and Paroles Division.***

*The **Community Justice Assistance Division** of the department establishes standards and provides funds for local community supervision and corrections departments. The 119 departments are under the administration of the District courts; probation officers are employees of the courts.*

*The **Texas Youth Commission** operates juvenile institutions. The Commission reports to its own Board. Supervision of juveniles on parole is by the Texas Youth Commission's **Community Services Division**.*

*Juvenile probation departments provide services to the counties. The **Juvenile Probation Commission** was created in 1981 to support, advise and provide standards for county probation departments.*

ORGANIZATION AND ADMINISTRATION

*The **Department of Corrections** operates the state adult correctional institution; its **Field Operations Division** provides adult probation and parole supervision and administers community correctional centers.*

*The **Board of Pardons** is the paroling authority for adults; its decision-making authority is autonomous and uninfluenced although it shares some administrative functions with the Department of Corrections.*

*The **Division of Youth Corrections**, within the **Department of Human Services**, supervises community-based placement for delinquent youth, operates the juvenile institutions and provides supervision of its releasees. The Division has its own paroling authority, the **Youth Parole Authority**, which has jurisdiction of all youth committed to the Division by the Juvenile Court. On July 1, 1987, the Division assumed full administrative and operational responsibility for the state's detention centers. The Division is also responsible for establishing and monitoring standards for licensing all programs in the state that provide services specifically for delinquent youth.*

Juvenile probation services are provided by probation officers under the juvenile courts.

The Division's community-based alternatives are provided through contracts with various private providers. On July 1, 1987, the Division also assumed full administrative and operational responsibility for the state's detention centers. Finally, the Division is responsible for establishing and monitoring standards for licensing all programs in the state that provide services specifically for delinquent youth.

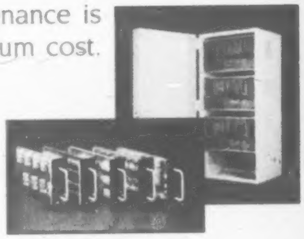
SYSTEM
HOUSING CONTROL
MASTER INTERCOM

FROM CONCEPT TO COMPLETION

It originates as a security concept— an idea for a security control system that will grow as easily as needs change. Taking a creative idea and turning it into an innovative, custom-designed security control system is what has made Unitek such a successful company.

Our technical staff will work with you to create a system that addresses your needs, and simplifies operations. And that's only the beginning. The heart of our system incorporates two standard components: relay logic control racks and circuit cards with self-diagnostic features. By incorporating these two standard components, maintenance is reduced to a minimum cost.



Circuit Cards & Logic Control Rack.

As well as supplying the corrections industry with security control systems, we also design and install sound, paging, and nurse-call systems. So when you're ready to take a concept and watch it become a complete, cost-effective, and extremely reliable system, call Unitek at **1-800-272-9757.**

This kind of disrespect can be deadly.

A prisoner doesn't have to physically assault you to put your life in jeopardy. If he's carrying the Hepatitis B virus, contact with his body fluids can put you out of commission for months. It can even kill you.

OSHA mandates you vaccinate your staff against Hepatitis B. Metro Medical provides the required blood test and vaccination for $120 per participant. Educational materials and record keeping included.

Request our book: MANAGING THE RISK (A public officials guide to Hepatitis B & Aids) on your letterhead.

ORGANIZATION AND ADMINISTRATION

*The **Department of Corrections** operates the adult correctional institutions and administers adult probation, parole and community services.*

*The **Indeterminate Sentence Review Board** is an independent agency reporting to the Governor. The Board reviews the cases of adult felons only. A Sentencing Reform Act which took effect on July 1, 1984 abolishes parole for crimes committed after June 30, 1984 and establishes a determinate sentencing structure for all felonies. The Board maintains jurisdiction over felons sentenced to the Department of Corrections for crimes committed before July 1, 1984.*

*The **Department of Social and Health Services, Division of Juvenile Rehabilitation** provides for juvenile institutions, group homes and parole and related community services.*

Juvenile probation services are provided by each county at the local level.

JUVENILE INSTITUTIONS AND PAROLE SERVICES

The ***Division of Juvenile Rehabilitation*** *provides for care, custody, rehabilitation and community supervision of court committed youth between the ages of 8 and 20. Youths are committed under a presumptive sentencing structure which is reviewed by the legislature. A minimum and maximum are set by the court using sentencing guidelines, or declaring a manifest injustice to set a sentence outside of the sentencing guidelines. A release date between the minimum and maximum is established by the residential facility.*

ORGANIZATION AND ADMINISTRATION

*The **Division of Corrections** is responsible for adult and juvenile correctional facilities, and adult parole supervision. The Division also handles adult and juvenile interstate compact cases for probation and parole.*

*The **Board of Probation and Parole** is the paroling authority for adults.*

*The **Supreme Court of Appeals** maintains probation departments that are responsible for providing probationary supervision services to all adults and many juveniles. Under West Virginia statute, juveniles return to the committing court for institutional release. Since release is judicially and not administratively determined, this is considered probation. These juveniles are supervised by the **Department of Health and Human Resources (DHHR)**. In approximately 60% of the cases, the DHHR also provides the courts with juvenile probation officers.*

ORGANIZATION AND ADMINISTRATION

*The **Board of Charities and Reform** is fully responsible for the management of penal institutions or community based correction programs and human service institutions for adults and juveniles. The Executive Secretary of the Board oversees all Board matters while the State Corrections Administrator assists him in penal matters.*

*The paroling authority for adults is vested in the **Parole Board**. The Board is also responsible for recommending commutations to the Governor and controls Good Time Awards.*

*The **Department of Probation and Parole**, an independent agency reporting only to the Governor, provides a state-wide system of probation and parole services for both adults and juveniles. A BACK-UP FORCE YOU CAN COUNT ON

It takes all you've got, just to keep the lid on. You put out so much. The inmates need so much more.

That's why a growing force of 34,000 Prison Fellowship volunteers stands by. In 632 state and federal prisons. Trained to give their best. Committing their time and talents to help meet the spiritual and emotional needs of prisoners, ex-prisoners, and their families. Providing positive role models. Teaching biblical values. Giving inmates the personal attention that can make the difference between getting out and staying out.

IT'S MORE THAN A PROGRAM.
IT'S A REINFORCEMENT.

PRISON FELLOWSHIP

COMING SOON: the premier issue of a prisoner newspaper–available free for distribution in all state and federal prisons.

▼U.S. Sentencing Commission

ORGANIZATION AND ADMINISTRATION

*The **U.S. Sentencing Commission** is an independent agency in the judicial branch charged with promulgating mandatory guidelines for federal judges to use when sentencing individuals and organizations convicted of federal crimes. Created under provisions of the Comprehensive Crime Control Act of 1984, the Commission's goals are to eliminate unwarranted disparity in sentences meted out for similar offenders who commit similar crimes and ensure fairness in sentencing and uniformity of punishment.*

The Commission's initial set of sentencing guidelines were submitted to the Congress for review on April 13, 1987 and went into effect on November 1, 1987. The Guidelines and related sentencing provisions of the Crime Control Act are applicable to all individuals whose offense occurred on or after November 1, 1987. The guidelines determine the appropriate sentence based on the specific characteristics of the offense and the offender. If incarceration is to be imposed, the guidelines specify a range of months from which the judge must choose a specific sentence. By statute, individuals sentenced under the guidelines are not eligible for early release through parole.

The Commission has ongoing monitoring, amendment, and sentencing education responsibilities. Its seven voting members are appointed by the President with the advice and consent of the Senate. The Attorney General and the Chairman of the Parole Commission also serve on the Commission as non-voting, ex-officio members.

Correctional Service Canada

ORGANIZATION AND ADMINISTRATION

Adult corrections in Canada is a responsibility shared by federal, provincial and territorial governments. Generally, the Government of Canada through the ***Ministry of the Solicitor General*** *and two agencies, the* ***Correctional Service of Canada*** *and the* ***National Parole Board****, has the responsibility for all offenders sentenced to two years or more. Provincial jurisdictions are responsible for offenders serving less than two years and have exclusive responsibility for convicted offenders who are sentenced to probation.*

The Correctional Service is headed by the Commissioner of Corrections who reports to the Solicitor General. The national headquarters in Ottawa performs overall planning and policy development for the Service. Five geographic regions administer the operation of the institutions and parole offices. The National Parole Board determines whether federal inmates can be released on parole prior to the expiry of their sentence.

The Correctional Service of Canada's mission statement reads: The Correctional Service of Canada, as part of the criminal justice system, contributes to the protection of society by actively encouraging and assisting offenders to become law-abiding citizens while exercising reasonable, safe, secure and humane control.

ORGANIZATION AND ADMINISTRATION

Pursuant to the passing of the Adult Corrections Act, 1975, a division of the ***Department of Justice*** *was created whereby the provincial custodial institutions and the probation service were amalgamated. This marked the commencement of the* ***Adult Probation Services*** *under the* ***Community Corrections Branch*** *of the* ***Adult Corrections Division****. The population served is adult offenders aged 18 and up, whereas juvenile offenders are served by the* ***Department of Social Services,*** *and parole is a responsibility of the Correctional Service Canada.*

The Department of Social Services is the principal agent for the delivery of ***Youth Corrections Services****. Youth between the ages of 12-18+ years usually are referred by the youth court upon disposition for case management, but other referrals for voluntary counselling are possible. The services available usually fall into one of four categories, a) alternative measures and dispositional options, b) community corrections, e.g., probation, c) community residential care, and d) secure custody.*

ORGANIZATION AND ADMINISTRATION

*The **Ministry of Correctional Services** is responsible for young offenders aged 16 and 17, and adults aged 18 years and over on remand or serving sentences of less than two years, as well as those on probation or parole.*

*The ministry is divided into two main divisions: **Operations** and **Corporate Services**. The ministry also has jurisdiction over the **Ontario Board of Parole** which is the paroling authority for inmates serving sentences in provincial institutions.*

The Operations Division is comprised of the Offender Programming branch, Community Corrections branch, and five regions, each with its own regional director and regional managers. All superintendents of provincial correctional facilities and probation/parole area managers report to the regional office.

The probation/parole offices in each region provide services for all young offenders and adults who have been placed under probation supervision by the courts. Staff in these offices also provide supervision for all inmates released from provincial institutions under the authority of the Board of Parole. Probation and parole officers may also be responsible for the supervision of incarcerates released on temporary absence or serving intermittent sentences.

▼ Code of Ethics

AMERICAN CORRECTIONAL ASSOCIATION

Preamble

The American Correctional Association expects of its members unfailing honesty, respect for the dignity and individuality of human beings, and a commitment to professional and compassionate service. To this end we subscribe to the following principles:

Relationships with clients/colleagues/other professions and the public—

- Members will respect and protect the civil and legal rights of all clients.
- Members will serve each case with appropriate concern for the client's welfare and with no purpose of personal gain.
- Relationships with colleagues will be of such character to promote mutual respect within the profession and improvement of its quality of service.
- Statements critical of colleagues or their agencies will be made only as these are verifiable and constructive in purpose.
- Members will respect the importance of all elements of the criminal justice system and cultivate a professional cooperation with each segment.
- Subject to the client's rights of privacy, members will respect the public's right to know, and will share information with the public with openness and candor.
- Members will respect and protect the right of the public to be safeguarded from criminal activity.

Professional conduct/practices—

- No member will use his or her official position to secure special privileges or advantages.
- No member, while acting in an official capacity, will allow personal interest to impair objectivity in the performance of duty.
- No member will use his or her official position to promote any partisan political purposes.
- No member will accept any gift or favor of such nature to imply an obligation that is inconsistent with the free and objective exercise of professional responsibilities.
- In any public statement, members will clearly distinguish between those that are personal views and those that are statements and positions on behalf of an agency.
- Members will be diligent in their responsibility to record and make available for review any and all case information which could contribute to sound decisions affecting a client or the public safety.
- Each member will report, without reservation, any corrupt or unethical behavior which could affect either a client or the integrity of the organization.
- Members will not discriminate against any client, employee, or prospective employee on the basis of race, sex, creed, or national origin.
- Members will maintain the integrity of private information; they will neither seek personal data beyond that needed to perform their responsibilities, nor reveal case information to anyone not having proper professional use for such.
- Any member who is responsible for agency personnel actions will make all appointments, promotions, or dismissals only on the basis of merit and not in furtherance of partisan political interests.

Affiliates of the American Correctional Association

The ACA structure is somewhat similar to a large federation. Instead of comprising divisions of service, the Association is made up of affiliate organizations and chapters–67 different groups representing the entire spectrum of correctional programming. Each affiliate or chapter is organized with its own constitution and bylaws, and each performs a valuable service in a specific area. Affiliates and chapters are voted into the Association by the Board of Governors after having met criteria established by the Board.

Affiliates and chapters contribute to the total policy development of the Association through their appointed members of the Delegate Assembly. The number of delegates representing each affiliate and chapter is directly related to the number of members each has in the ACA. The ACA has four regional affiliates, 31 professional affiliates and 10 state affiliates. Dual membership, the fourth category, is available in 22 states where membership is provided in both ACA and the state chapters.

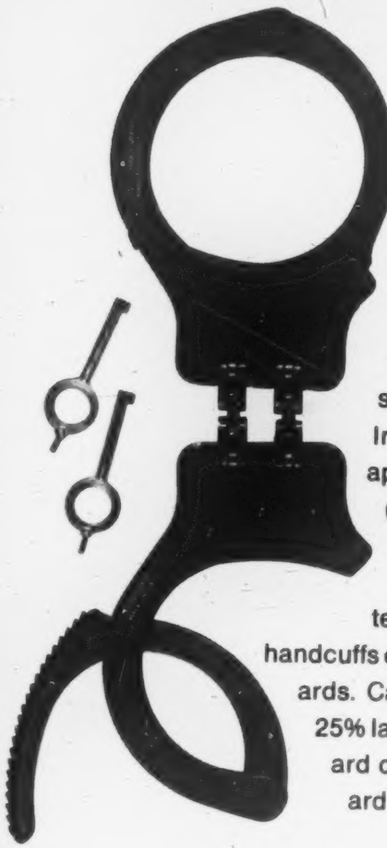
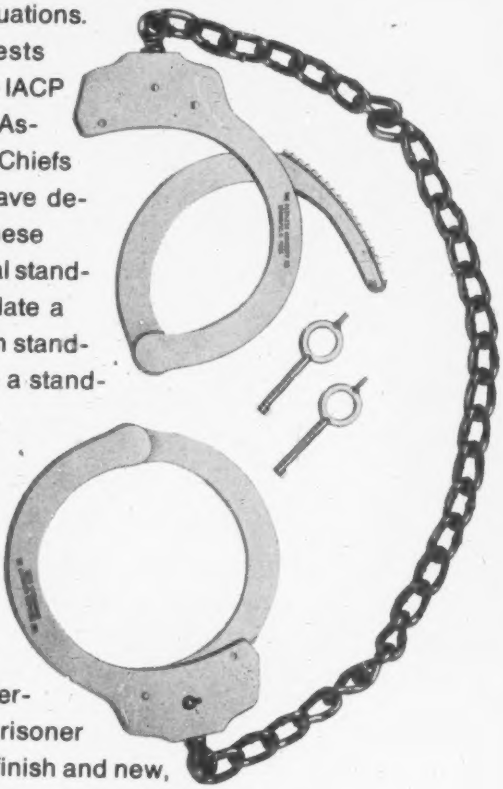
PEERLESS RESTRAINING DEVICES



New Hinged Handcuffs These patented handcuffs are the ultimate in restraint and provide maximum safety to the restraining officer. New hinge design prevents prisoners from using muscles and tendons to tamper with locking mechanism. When handcuffed properly, prisoners are unable to escape, even with key in hand. Hinged Handcuffs, permit cuffing in a cross arm position, preventing "stepping" through to bring hands from back to front. Particularly effective in transporting prisoners and in high security risk situations. Independent tests approved by the IACP (International Association of Chiefs of Police) have determined that these handcuffs exceed Federal standards. Can accommodate a 25% larger wrist than standard cuffs and uses a standard handcuff key.



Leg Irons

Peerless leg irons are adjustable shackles built for years of service. They are made to the same rigid specifications as U.S. government approved Peerless handcuffs. They have 19 positive locking positions to a 10" circumference and a strong 15" chain to prevent the prisoner from running. All steel construction with nickle finish and new, improved double lock. Two standard handcuff keys are furnished.
